

## Editor's Corner

### **Announcements**

The Californian Journal of Health Promotion has a new publication schedule beginning with Issue 3, September 2005. The short turn around time for each issue creates unique constraints for us to format the issue for publishing. Thus, we will no longer set the publication date on the first of the month.

I would like to welcome Dr. Jeanne Freeman to the CJHP Editorial Board. Jeanne specializes in nutrition and osteoporosis.

### **Writing Workshop for Potential Authors, Hawaii Themed Issue December 2005**

I will be in Hawaii on Friday, September 23, 2005, at the University of Hawaii Medical School to conduct a writing workshop for prospective authors of the Hawaii themed issue. Those interested in attending the workshop should contact Dr. Jay Maddock by e-mail [jmaddock@hawaii.edu](mailto:jmaddock@hawaii.edu) or by phone 808-956-5779.

### **In This Issue**

It is always refreshing to see health education students co-publishing their excellent work with their professors. Please read "A Preliminary Study of the Work of Health Educators in a Clinical Setting" by Ms. Lisa Smith and Dr. James McKenzie and "VIAGRA, Cialis, LEVITRA, and the Potential for Habituation" by Mr. Paul Wesbecher and Dr. Roland Lamarine.

### **APHA and SOPHE Conferences Moved to Philadelphia**

The APHA and SOPHE conferences have been moved to Philadelphia. Please check out their web sites for new information: APHA (<http://www.apha.org>) and SOPHE (<http://www.sophe.org/>).
